

SECOND APPENDIX – Installation Plan **Information**

ACMA Radiocommunications Monitoring Equipment

One (1) **fully enclosed rack** that is, or is intended to be, installed in the Plant Store in the space marked “LEASE A” on SP295646 in the First Appendix.

The rack is, or is to be, contained within the space limited by the dimensions specified for LEASE A on SP295646 in the First Appendix.

ACMA Antenna Systems

The following antenna systems that are, or are intended to be, mounted in two locations on the outside wall of the Plant Store, as shown in the drawing below and in the spaces marked “LEASE B” and “LEASE C” on SP295646 in the First Appendix:

One (1) **microwave dish** approximately 600mm in size

One (1) **disc cone antenna** approximately 850mm in size

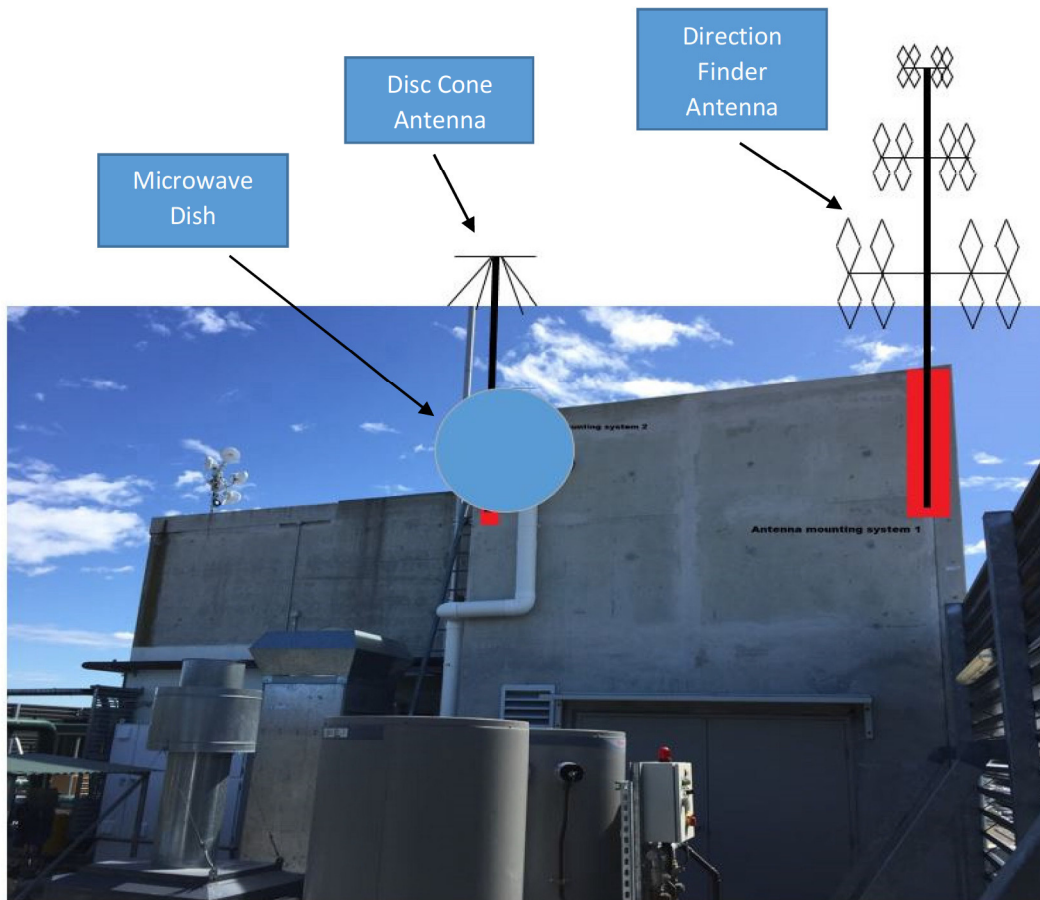

One (1) **direction finder antenna** approximately 1000mm in size.

The microwave dish and the disc cone antenna are, or are to be, contained within the space limited by the dimensions specified for LEASE B on SP295646 in the First Appendix. The direction finder antenna is, or is to be, contained within the space limited by the dimensions specified for LEASE C on SP295646 in the First Appendix.

Second Appendix - Indicative Installation Plan

Drawing not to scale.
