

Brisbane Traffic Management Plan

Cirque du Soleil, a world-renowned acrobatic performing arts production company proposes to present its latest production "OVO" under a Big Top (theatrical tent). The tent seats 2500 and parking usually caters for 400 -600 vehicles.

LOCATION:

257, MacArthur Road (off Remora Road), Northshore Hamilton, Queensland, 4009
Site is managed by ULDA – Urban Land Development Authority

DATES:

Construction: 11 June 2012
Set Up: 2 July
Performance: 13 July – 2 September 2012
Tear down: 2 – 5 September

Construction & Set Up period:

The delivery schedule is managed by Cirque du Soleil Construction Manager Daniel Belanger and Logistics coordinator Max Blyth.

Heavy Vehicle route:

To ensure local residents are not affected by increased traffic of heavy vehicles, during set up and tear down trucks will be advised not to access Macarthur Ave via Remora Rd

Truck access will be:

From Southern Cross Way: Fison Ave West – Links Ave South – Curtain Ave West – Barcham St – MacArthur Ave

From Kingsford Smith Drive: Theodore St – Cullen Ave West – Curtain Ave West – Barcham St – Macarthur Ave.

Performance period:

There will be parking for approximately 500 – 600 vehicles in the area directly to the west of the Big Top. This includes VIP and disabled parking areas. There is also on street parking available on Macarthur Avenue.

Parking cost is \$10.

Patron vehicle arrival and departure:

A parking and traffic management company will be contracted to ensure patrons arriving and departing by private vehicle will be efficiently managed so as to ensure limited time of increased traffic in residential areas prior to and end of performances.

Directional signage will be located at intersections advising patrons on the most efficient routes to and from the site. The signage will be a mix of printed signs and large variable message boards.

The car park will be open 2 hours prior to performance.
Extra staff will be employed for days with matinees.

A detailed operations plan including signage locations will be supplied once the parking contractor is confirmed.
