PREAMBLE

For the purpose of interpreting this PDA Development Approval, including the PDA Development Conditions, the following applies:

Compliance assessment

Where a condition of this PDA Development Approval requires compliance assessment, compliance assessment is required in accordance with the following:

- a) The applicant must pay to MEDQ at the time of submission the relevant fee for compliance assessment, including any third party peer review costs which will be charged on a 100% cost recovery basis. The compliance assessment fees are set out in the MEDQ's development assessment fee schedule (as amended from time to time).
- b) Compliance assessment and endorsement by EDQ Development Assessment, DSDMIP is required prior to any work commencing.
- c) Compliance assessment and endorsement can be repeated where a different design or solution, to that already endorsed, is sought.
- d) The process and timeframes that apply to compliance assessment are as follows:
 - i. the applicant liaises with EDQ Development Assessment, DSDMIP to determine the relevant plans/supporting information required to be submitted.
 - ii. the applicant submits plans/supporting information as required under the relevant condition of approval for compliance assessment.
 - iii. **within 20 business days** – EDQ Development Assessment, DSDMIP assesses the plans/supporting information and:
 1. if satisfied with the plans/supporting information as submitted - endorses the plans/supporting information and the condition of approval (or element of the condition) is determined to have been met; or
 2. if not satisfied with the plans/supporting information as submitted – notifies the applicant accordingly
 - iv. if the applicant is notified under iii.2. above, revised plans/supporting information are to be re-submitted to EDQ Development Assessment, DSDMIP **within 20 business days** from the date of the notice.
 - v. **within 20 business days** – EDQ Development Assessment, DSDMIP assesses the revised plans/supporting information and:
 1. if satisfied with the revised plans/supporting information - endorses the revised plans/supporting information and the condition of approval (or element of the condition) is determined to have been met; or
 2. if not satisfied with the revised plans/supporting information as submitted – notifies the applicant accordingly.

- vi. if EDQ Development Assessment, DSDMIP is not satisfied that compliance has been achieved within **20 business days** - repeat steps iv. and v. above. If either party is not satisfied by the outcome of this process, that party can elect to enter into a mediation process with an independent mediator agreed to by both parties.

Despite note vi. above, the condition of approval (or element of the condition) is determined to have been met only when EDQ Development Assessment, DSDMIP endorses relevant plans/supporting information.

STANDARD ADVICE

Please note that in order to lawfully undertake development, it may be necessary to obtain approvals other than this PDA development approval. For advice on other approvals that may be necessary in relation to your proposal, it is recommended that you seek professional advice.

IMPORTANT ADVICE NOTE

The current wastewater strategy is based/reliant on the provision of a regional sewerage treatment plant in a location external to the Yarrabilba PDA. However, the delivery of this facility is reliant on the execution of the Sub-Regional Infrastructure Agreement (SRIA). In the event the LSIA is not signed, an on-site sewerage solution must be provided for all future development which exceeds the capacity of the existing system (i.e. 12,700EP).

Precinct 3D (the subject site) has been identified in the endorsed Precinct 3 Context Planning Area Strategy as the most appropriate location within the PDA for an on-site sewage treatment plant (STP) capable of servicing the entire Yarrabilba development of approximately 50,000EP.

While it is acknowledged if the LGIA is not executed, a 5000EP temporary STP (refer to Precinct 3D Stantec technical memo) can be accommodated in the Precinct 3D balance lot, this plant would essentially only

have the capacity to service development applications currently under assessment (ie. Precincts 3D, 5A, 5B, 5C and 5E).

The applicant is therefore advised that if the SRIA is not executed the development of Precinct 3D could potentially impact on the provision of an on-site STP for the balance of the Yarrabilba development within the PDA and a new site location within Yarrabilba or elsewhere will need to be identified.
