PLANS AND DOCUMENTS referred to in the PDA DEVELOPMENT APPROVAL

Approval no: DEV2022/1285
Date: 20 October 2022

Note

- Property boundaries shown on plan are based on DCDB and need to be surveyed by cadastral surveyor.
- Several recovery marks and corner pegs were measured on site to establish cadastral boundaries. In general the cadastral follows the DCDB input closely apart from lots on BUP7174 and RP191651. Surveyed fences and infrastructure correspond with the cadastral input.
