9 October 2025

Stockland Development Pty Ltd
C/- Urbis Ltd
Att: Mr Dean Jones and Ms Sirena Kwok
Level 32, 300 George Street
BRISBANE CITY QLD 4000

Email: kkspan@urbis.com.au; skwok@urbis.com.au

Dear Kris and Sirena

Section 99 Approval - Application to Change PDA Development Approval
Reconfiguring a Lot with Plan of Development and Context Plan at Bellvista
Boulevard, Caloundra West and Bells Creek Road, Bells Creek described as Lot 505
on SP344655, Lot 3 on SP333886, Lot 4 on SP344654 and Lot 11 on SP341007

On 9 October 2025 the Minister for Economic Development Queensland (MEDQ) decided to grant **all** of the amendment application applied for, subject to PDA development conditions set out in this PDA decision notice.

The PDA decision notice and approved plans/documents can be viewed in the MEDQ Development Approvals Register via the Department website [Current applications and approvals](#).

If you require any further information, please contact Mrs Jennifer Davison, Principal Planner, Development Assessment, in Economic Development Queensland, by telephone on (07) 3452 7127 or at Jennifer.davison@edq.qld.gov.au, who will assist.

Yours sincerely

Jeanine Stone
Project Director
Development Assessment
Economic Development Queensland

Approved plans and documents

The plans and documents approved by the MEDQ and referred to in the PDA development conditions for the PDA development approval are detailed below.

Approved plans and documents		Number	Date
1.	Aura Town Centre Plan of Development Prepared by Urbis for Stockland August 2025	N/A	August 2025, amended in red 24 September 2025
2.	Engineering Services Report, prepared by Stantec	304700147	28/08/2025
Plans and documents previously approved on 9 December 2024		Number	Date
1.	Caloundra South – Plan of Development – NORTH-CENTRAL NEIGHBOURHOOD	Project No: BA4672 Drawing No: ROL03 Rev: 14	18 March 2024, amended in red 9 December 2024
Plans and documents previously approved on 23 August 2024		Number	Date
1.	Aura Town Centre Plan of Development Prepared by Urbis for Stockland August 2024	N/A	August 2024, amended in red 20 August 2024
Supporting documents previously referenced		Number	Date
2.	Overall Service Layout Plan Response to EDQ Further Issues, prepared by Cardno	510362-01-CI-STORMWATER	18 October 2021
3.	Aura Town Centre Bus Movement Strategy Update Technical Memorandum, prepared by Cardno/Stantec	5103-62	13 May 2022
4.	Aura The Splash of Colour – People’s Place Sunshine Coast Councilors Presentation, prepared by Cusp Landscape Architecture and Urban Design and ARM Architecture	Issue A	25 November 2021

Plans and documents previously approved on 10 October 2022		Number	Date
5.	Aura Town Centre Traffic Modelling Refresh, Prepared by PWC on behalf of Stockland	N/A	3 August 2022
Plans and documents previously approved on 1 June 2018		Number	Date
6.	Addendum to the Transport Noise Impact Assessment prepared by ASK Acoustic and Air Quality	8342R05V02	12 February 2018
Plans and documents previously approved on 9 November 2017		Number	Date
7.	Transport Noise Impact Assessment prepared by Ask Acoustic and Air Quality	N/A	May 2016 and August 2016
8.	Caloundra South Town Centre Visum Modelling Report prepared by MWH	N/A	April 2016
9.	Caloundra South Development Flood Risk Management Strategy prepared by BMT WBM.	N/A	October 2015
10.	Caloundra South Development Flood Risk Management Strategy Technical Memorandum – Aura Town Centre revised Flood Modelling prepared by BMT WBM	N/A	June 2016
11.	Stormwater Quality Management Plan prepared by DesignFlow	N/A	June 2016
Endorsed Context Plan		Number	Date
12.	Caloundra South Town Centre Context Plan Area Strategy 4 prepared by Hassell	N/A	May 2016
Supporting Plans and Documents		Number	Date
13.	Civil Engineering Services Report Reconfiguration of a Lot Application prepared by Calibre Consulting	N/A	26 May 2016
14.	Caloundra South: Application 4 Transport Impact Assessment Version 4 prepared by MWH	N/A	June 2016
15.	Caloundra South Commercial Centre Stormwater Management Plan – Final Report prepared by BMT WBM	N/A	September 2015
16.	Aura City of Colour landscape and street typologies prepared by Urbis	N/A	May 2016
17.	Caloundra Downs Baseline Monitoring Program Final Report prepared by BMT WBM	N/A	October 2011
18.	Identification of Bus Stop Locations & Infrastructure Caloundra South – Application 4 Area Rev D prepared by MWH	N/A	October 2015
19.	Aura Town Centre Flood Impact Assessment – Planning Policy Mapping Overlays prepared by BMT - WBM	N/A	October 2016

20.	Updated Caloundra South Water Quality Management Plan (CSWQMP) prepared by BMT WBM	N/A	15 September 2016
21.	Aura Town Centre EDQ Report 27.11.2020	N/A	27.11.2020
22.	Aura Town Centre East-West Link Pedestrian Crossing Response to EDQ Further Clarifications, prepared by SLR	A00.01406-L02-v1.1	11 October 2021
23.	Aura City Centre EDQ Response Report (Street Typologies Package) 17.09.2021, prepared by Plus Architecture	N/A	17 September 2021

Preamble, Abbreviations, and Definitions

PREAMBLE

The information contained in this preamble is provided as advice only. It does not form part of the PDA Development Conditions. It is provided for the purpose of interpreting this PDA Development Approval, including the PDA Development Conditions.

1. STANDARD ADVICE

In order to lawfully undertake development, it may be necessary to obtain approvals other than this PDA development approval. For advice on other approvals that may be necessary in relation to the proposal, it is recommended that you seek professional advice.

2. WORKS EXTERNAL TO THE PDA

If a condition of this PDA development approval requires works external to the PDA that development may be subject to the Sustainable Planning Act 2009 (SPA) and may require approval under the SPA. This position may be affected if the works constitute PDA-associated development as defined in the *Economic Development Act 2012*:

a) Definition of PDA-associated development

"PDA-associated development, for a priority development area, means development that is:

(a) declared to be PDA-associated development for the area under section 40C(1); or

(b) identified as PDA-associated development for the area in the relevant development instrument for the area."

(see schedule 1 of the *Economic Development Act 2012*)

b) Development external to the PDA that is not PDA-associated development

Where a condition of a PDA Development Approval states that works external to the PDA are required as a result of the proposed development and:

i) the works are not identified as PDA-associated development in the relevant development instrument; and

ii) the works are not exempt development under the *Sustainable Planning Act 2009 (SPA)*; then

iii) there are two options to obtain approval to undertake work outside the PDA:

1. **Declaration** of PDA-associated development by the MEDQ, by the process detailed in sections 40B and 40C of the *Economic Development Act 2012*; or
2. **Development Approval** under the *Sustainable Planning Act 2009* through the relevant local government authority or planning body.

ABBREVIATIONS AND DEFINITIONS

The following is a list of abbreviations utilised in this approval:

AILA means a Landscape Architect registered by the Australian Institute of Landscape Architects.

CERTIFICATION PROCEDURES MANUAL means the document titled *Certification Procedures Manual*, prepared by EDQ, dated April 2020 (as amended from time to time).

CONTRIBUTED ASSET means an asset constructed under a PDA development approval or Infrastructure Agreement that will become the responsibility of an External Authority. For the purposes of operational works for a Contributed Asset, the following definitions apply:

- a) **External Authority** means a public-sector entity other than the MEDQ;
- b) **Parkland** means carrying out operational work related to the provision of parkland infrastructure;
- c) **Roadworks** means carrying out any operational work within existing or proposed road(s), to a depth of 1.5m measured from the top of kerb, and includes Streetscape Works;
- d) **Sewer Works** means carrying out any operational work related to the provision of wastewater infrastructure;
- e) **Streetscape Works** means carrying out any operational work within the verge of a road, including footpath surface treatments, street furniture, street lighting and landscaping;
- f) **Stormwater Works** means carrying out any operational work related to the provision of stormwater infrastructure; and
- g) **Water Works** means carrying out any operational work related to the provision of water infrastructure.

COUNCIL means the relevant local government for the land the subject of this approval.

EDQ means Economic Development Queensland.

EDQ DA means Economic Development Queensland's – Development Assessment team.

EDQ IS means Economic Development Queensland's – Infrastructure Solutions team.

LGIA means the Caloundra South Priority Development Area Infrastructure Agreement (Local Government Infrastructure) in effect 2 November 2015 (as amended from time to time).

MEDQ means the Minister for Economic Development Queensland.

PDA means Priority Development Area.

RPEQ means Registered Professional Engineer of Queensland.

STIA means the Caloundra South Priority Development Area Infrastructure Agreement (State Transport Infrastructure) in effect on 28 September 2015 (as amended from time to time)

Compliance assessment

Where a condition of this approval requires Compliance Assessment, Compliance Assessment is required in accordance with the following:

- a) The applicant must:
 - i) pay to MEDQ at the time of submission the relevant fee for Compliance Assessment, including any third party peer review costs which will be charged on a 100% cost recovery basis. The Compliance Assessment fees are set out in EDQ Development Assessment Fees and Charges Schedule¹ (as amended from time to time).
 - ii) submit to EDQ DA a duly completed Compliance Assessment form².
 - iii) submit to EDQ DA the documentation as required under the relevant condition.
- b) Where EDQ is satisfied the documentation submitted for Compliance Assessment meets the requirements of the relevant condition (or element of the condition), EDQ will endorse the documentation and advise by written notice.
- c) Compliance Assessment and endorsement can be repeated where a different design or solution, to that already endorsed, is sought.
- d) The process and timeframes that apply to Compliance Assessment are as follows:
 - i) applicant submits items required under a) above to EDQ DA for Compliance Assessment.
 - ii) **within 20 business days** – EDQ assesses the documentation and:
 1. if satisfied, endorses the documentation; or
 2. if not satisfied, notifies the applicant accordingly.
 - iii) if the applicant is notified under ii.2. above, revised documentation must be submitted **within 20 business days** from the date of notification.
 - iv) **within 20 business days** – EDQ assesses the revised documentation and:
 1. if satisfied, endorses the revised documentation; or
 2. if not satisfied, notifies the applicant accordingly.
 - v) where EDQ notifies the applicant as stated under iv.2. above, repeat steps iii. and iv. above. If either party is not satisfied by the outcome of this process, that party can elect to enter into a mediation process with an independent mediator agreed to by both parties.
- e) Despite note v. above, the condition (or element of the condition) is determined to have been met only when EDQ endorses relevant documentation.

¹ The EDQ Development Assessment Fees and Charges Schedule is available at EDQ's website.

² The Compliance Assessment form is available at EDQ's website. It sets out how to submit documentation for Compliance Assessment and how to pay Compliance Assessment fees.

PDA Development Conditions – Reconfiguring a Lot		
No.	Condition	Timing
General		
1.	Carry out the Approved Development Carry out the approved development generally in accordance with the approved plans and documents, the STIA and LGIA and any other executed Infrastructure Agreement.	Prior to survey plan endorsement for the relevant stage
2.	Maintain the Approved Development Maintain the approved development generally in accordance with any documentation and as required by these conditions.	At all times
3.	Certification of Operational Works – Water and Sewerage All operational works for water and sewerage Contributed Assets, undertaken in accordance with this approval must comply with the requirements of a Unitywater Connection Approval and fulfil all requirements and responsibilities outlined in the <i>Certification Procedures Manual</i> .	As required by the <i>Certification Procedures Manual</i>
4.	Certification of Operational Works – Other All operational works for Contributed Assets other than water and sewerage, undertaken in accordance with this approval must comply with all requirements of and fulfil all responsibilities outlined in the STIA or the LGIA as applicable.	As required by the LGIA, the STIA or the <i>Certification Procedures Manual</i>
5.	Street Naming Submit to EDQ IS a schedule of street names approved by Council.	Prior to survey plan endorsement for the relevant stage
6.	Entry Walls or Features The provision of entry walls or features is prohibited on roads and open space unless otherwise approved by EDQ IS.	Ongoing
7.	Staging for Reconfiguration a) The stages of the reconfiguration must be generally in accordance with the indicative staging plan (Appendix C) of the approved PoD. However, the stages indicated on the indicative staging plan do not need to be delivered sequentially unless required for infrastructure delivery purposes. b) Unless otherwise approved in writing by EDQ IS each stage must be independently serviced by roads, water, sewer, stormwater, and any other relevant utilities.	Prior to survey plan endorsement for each stage
8.	Advertising Devices Design and install advertising devices generally in accordance with the approved PoD.	Ongoing

9.	<p>Precinct Boundaries</p> <p>The applicant is to seek an amendment to the Master Plan Approval DEV2011/200 to align the precinct boundaries to ensure they are consistent with this approval.</p>	Prior to 30 June 2020
Engineering		
10.	<p>Construction Management Plan</p> <p>a) Submit to EDQ IS a site-based Construction Management Plan (CMP), prepared by the principal site contractor and reviewed by a suitably qualified and experienced person responsible for overseeing the site works, to manage construction impacts, including:</p> <ul style="list-style-type: none"> i) noise and dust in accordance with the EP Act; ii) stormwater flows around and through the site without increasing the concentration of total suspended solids or Prescribed Water Contaminants (as defined in the EP Act), causing erosion, creating any ponding and causing any actionable nuisance to upstream and downstream properties; iii) contaminated land, where required under a site suitability statement prepared in accordance with section 389 of the EP Act; iv) complaints procedures; v) site management: <ul style="list-style-type: none"> 1. for the provision of safe and functional alternative pedestrian and cycle routes, past, through or around the site; 2. to mitigate impacts to public sector entity assets, including street trees, on or external to the site; 3. for safe and functional temporary vehicular access points and frequency of use; 4. for the safe and functional loading and unloading of materials including the location of any remote loading sites; 5. for the location of materials, structures, plant and equipment; 6. of waste generated by construction activities; 7. detailing how materials are to be loaded/unloaded; 8. of proposed external hoardings and gantries (with clearances to street furniture and other public sector entity assets); 9. of employee and visitor parking areas; 10. of anticipated staging and programming; 11. for the provision of safe and functional emergency exit routes; and 12. any out of hours work as endorsed via Compliance Assessment. <p>b) A copy of the CMP submitted under part a) of this condition must be current and available on site.</p> <p>c) Carry out all construction work generally in accordance with the CMP submitted under part a) of this condition.</p>	<p>a) Prior to commencing work for the relevant stage.</p> <p>b) During construction</p> <p>c) During construction</p>

11.	<p>Out of Hours of Work – Construction</p> <p>Unless otherwise endorsed, via Compliance Assessment for out of hours work, construction hours for the approved development are limited to Monday to Saturday between 6:30am to 6:30pm, excluding public holidays.</p>	<p>During construction unless otherwise endorsed.</p>
12.	<p>Out of Hours Work – Compliance Assessment</p> <p>Where out of hours work is proposed, submit to EDQ IS, for Compliance Assessment, an out of hours work request. The out of hours work request must include a duly completed out of hours work request form.</p>	<p>Minimum of 10 business days prior to proposed out of hours work commencement date.</p>
13.	<p>Traffic Management Plan</p> <p>a) Submit to EDQ IS a Traffic Management Plan (TMP), certified by a person holding a current Traffic Management Design qualification or higher.</p> <p>The TMP must include the following:</p> <ul style="list-style-type: none"> i) provision for the management of traffic around and through the site during and outside of construction work hours; ii) provision of parking for workers and materials delivery during and outside of construction work hours; etc.; iii) ongoing monitoring, management review and updates certified by a person holding a current Traffic Management Design qualification or higher; iv) traffic control plans and/or traffic control diagrams, prepared in accordance with the Manual of Uniform Traffic Control Devices (MUTCD), for any temporary part or full road closures of any Council or State road(s). <p>b) Undertake all works generally in accordance with the certified TMP which must be current and available on site at all times.</p>	<p>a) Prior to commencement of site works for the relevant stage</p> <p>b) At all times during construction</p>
14.	<p>Retaining Walls</p> <p>a) Submit to EDQ IS detailed engineering plans, certified by a RPEQ, of all retaining walls on lot boundaries 1.0m or greater in height.</p> <p>Retaining walls shall be generally in accordance with <i>PDA Practice Note No. 10 – Plans of development</i> unless otherwise approved by EDQ IS.</p> <p>b) Submit to EDQ IS certification from an RPEQ that all retaining wall works 1.0m or greater in height have been constructed generally in accordance with the certified plans required under part a) of this condition.</p>	<p>a) Prior to commencement of site works for the relevant stage</p> <p>b) Prior to survey plan endorsement for the relevant stage</p>

<p>15.</p>	<p>Filling and Excavation</p> <p>a) Submit to EDQ IS detailed earthworks plans, certified by a RPEQ, generally in accordance with AS3798 – 2007 “Guidelines on Earthworks for Commercial and Residential Developments and the Conceptual Bulk Earthworks Plans (Sheets 1 -10) Dwg Nos. B12201-DA48 to DA 58 dated 07/08/13 in the Civil Engineering Services Report Reconfiguration of a Lot Application dated 26/05/16 prepared by Calibre Consulting.</p> <p>The certified earthworks plans shall:</p> <ul style="list-style-type: none"> i) include a geotechnical soils assessment of the site; ii) be consistent with the Erosion and Sediment Control plans; iii) provide full detail of areas where dispersive soils will be disturbed, treatment of dispersive soils and their rehabilitation; iv) provide full details of any areas where surplus soils are to be stockpiled. <p>b) Carry out the earthworks generally in accordance with the certified plans required under part a) of this condition.</p> <p>c) Submit to EDQ IS certification from a RPEQ that all earthworks have been carried out generally accordance with the certified plans required under part a) of this condition and that any unsuitable material encountered has been treated or replaced with suitable material.</p>	<p>a) Prior to commencement of site works for the first stage</p> <p>b) Prior to survey plan endorsement for relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>
<p>16.</p>	<p>Micro-simulation Traffic Model</p> <p>a) Submit to EDQ IS for Compliance Assessment a micro-simulation traffic model and associated reports based upon the approved Caloundra South Town Centre Visum Modelling Report prepared by MWH dated April 2016 and in accordance with approved PoD (October 2021 and amended in red) that demonstrates the appropriate sizing for intersections.</p> <p>b) Provide intersection sizings in accordance with the endorsed micro-simulation model required under part a).</p>	<p>a) Prior to compliance endorsement of the intersections within any Town Centre Precincts (North, Mid and South)</p> <p>b) As indicated</p>
<p>17.</p>	<p>Roads – Internal</p> <p>a) Submit to EDQ IS engineering design/construction drawings, certified by a RPEQ, for internal roads, including parking bays, intersections, bus bays, traffic devices, cycle lanes, two cycle tracks, off-road shared paths and pedestrian footpaths generally in accordance with the LGIA Infrastructure Network 5 – Local Transport Infrastructure Part C and the approved PoD.</p>	<p>a) Prior to commencement of work for the relevant stage</p>

	<ul style="list-style-type: none"> b) Submit to EDQ IS engineering design/ construction drawings certified by a RPEQ, generally in accordance with the certified plans required under part a) of this condition. c) Construct the works generally in accordance with the certified plans as required under part b) of this condition. d) Submit to EDQ IS 'as-constructed' drawings, asset register and test results, certified by a RPEQ, in a format acceptable to the Council of all works constructed in accordance with this condition. 	<ul style="list-style-type: none"> b) Prior to survey plan endorsement for the relevant stage c) Prior to survey plan endorsement for the relevant stage d) Prior to survey plan endorsement for the relevant stage
18.	<p>Bells Creek Arterial</p> <ul style="list-style-type: none"> a) Deliver the section(s) of Bells Creek Arterial required to service the Town Centre in accordance with the STIA. b) Submit to EDQ IS 'post-construction documentation in accordance with the STIA. 	<ul style="list-style-type: none"> a) In accordance with the STIA b) Prior to acceptance 'on-maintenance'
19.	<p>Compliance Assessment – Roads – Sub-arterial 1 (North-South)</p> <ul style="list-style-type: none"> a) Submit to EDQ IS for Compliance Assessment detailed concept Phase 1 (interim) and Phase 2 (ultimate) plans including road profile, road layout, bridge, two-way separated cycle track, shared paths, bus bays and intersections for Sub-arterial 1 as described in the LGIA Infrastructure Network 5 – Local Transport Infrastructure generally in accordance with Part C – Infrastructure Standards and the approved PoD. b) Submit to EDQ Development Assessment DSDILGP Phase 1 interim) engineering design/construction drawings, certified by a RPEQ, generally in accordance with the endorsed plans required under part a) of this condition. c) Construct the works generally in accordance with the certified plans as required under part b) of this condition. d) Submit to EDQ IS Phase 1 'as-constructed' drawings, asset register and test results, certified by a RPEQ, in a format acceptable to the Council of all works constructed in accordance with this condition. 	<ul style="list-style-type: none"> a) Prior to commencement of works for the relevant stage b) Prior to commencement of works for the relevant stage. c) Prior to survey plan endorsement for the relevant stage d) Prior to survey plan endorsement for the relevant stage
20.	<p>Compliance Assessment – Roads – Sub-arterial 2 (East - West)</p> <ul style="list-style-type: none"> a) Submit to EDQ IS for Compliance Assessment detailed concept Phase 1 (interim) and Phase 2 (ultimate) plans including road profile, road layout, two-way separated cycle track, shared paths, bus bays and intersections for Sub-arterial 2 as described in the LGIA Infrastructure Network 5 – Local Transport Infrastructure generally in accordance 	<ul style="list-style-type: none"> a) Prior to commencement of works for the relevant stage

	<p>with Part C – Infrastructure Standards and the approved PoD.</p> <p>b) Submit to EDQ IS Phase 1 (interim) engineering design/construction drawings, certified by a RPEQ, generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>c) Construct the works generally in accordance with the certified plans as required under part b) of this condition.</p> <p>d) Submit to EDQ IS ‘as–constructed’ drawings, asset register and test results, certified by a RPEQ, in a format acceptable to the Council of all works constructed in accordance with this condition.</p>	<p>b) Prior to commencement of works for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p> <p>d) Prior to survey plan endorsement for the relevant stage</p>
21.	<p>Compliance Assessment – Roads – Centre Connector 1, 2, Transit Esplanade and One Way Roads</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed concept plans including road profile, road layout, cycle tracks, shared paths, bus bays and intersections as described in the LGIA Infrastructure Network 5 – Local Transport Infrastructure generally in accordance with Part C – Infrastructure Standards and the approved PoD.</p> <p>b) Submit to EDQ IS engineering design/construction drawings, certified by a RPEQ, generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>c) Construct the works generally in accordance with the certified plans as required under part b) of this condition.</p> <p>d) Submit to EDQ IS ‘as–constructed’ drawings, asset register and test results, certified by a RPEQ, in a format acceptable to the Council of all works constructed in accordance with this condition.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to commencement of works for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p> <p>d) Prior to survey plan endorsement for the relevant stage</p>
22.	<p>Compliance Assessment – Roads – Seamless Connection</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed concept plans for the Seamless Connection as shown in the PoD.</p> <p>b) Submit to EDQ IS engineering design/construction drawings, certified by a RPEQ, generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>c) Construct the works generally in accordance with the certified plans as required under part b) of this condition.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to commencement of works for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>

	<p>d) Submit to EDQ IS 'as-constructed' drawings, asset register and test results, certified by a RPEQ, in a format acceptable to the Council of all works constructed in accordance with this condition.</p>	<p>d) Prior to survey plan endorsement for the relevant stage</p>
23.	<p>Compliance Assessment – Private Roads</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed concept layout plans for all private roads as shown in Precinct 8.1 and 8.2 in the approved PoD, Aura City Centre EDQ Response Report (Street Typologies Package) 17.09.2021, prepared by Plus Architecture (as relevant) and Australian Standard AS2890 Series.</p> <p>b) Submit to EDQ IS engineering design/construction drawings, certified by a RPEQ, generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>c) Construct the works generally in accordance with the certified plans as required under part b) of this condition.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to commencement of works for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>
24.	<p>Compliance Assessment – Service Road</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed concept layout plans and supporting design documentation for the Service Road adjacent to Bells Creek Arterial as shown within Precinct 6 on the approved PoD Road Network Hierarchy Plan. The certified plans/reports shall include the following:</p> <p>i) Concept design to reflect the extent of the service road in both the interim and ultimate stage (following ultimate Bells Creek Arterial construction)</p> <ul style="list-style-type: none"> • Interim Extent (Works and Land Contribution) STIA ICM 01 Point E to proposed utility and WSUD facilities located within Precinct 6 (Stage 99). • Ultimate Extent (Land Contribution only, works by others) STIA ICM 01 Point G to proposed utility and WSUD facilities located within Precinct 6, north of STIA ICM 01 Point E. Alignment generally in accordance with the STIA. <p>b) Submit to EDQ IS engineering design/construction drawings, certified by a RPEQ, generally in accordance with the endorsed plans required under part a) of this condition for the interim service road.</p> <p>c) Construct the works generally in accordance with the certified plans as required under part b) of this condition.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to commencement of works for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>

	<p>d) Provide land contribution for a 20m wide road reserve for full extent of the ultimate Service Road in accordance with STIA as defined under part a) of this condition.</p>	<p>d) Prior to or at the same time as the registration of the adjoining Environmental Protection Zone land</p>
25.	<p>Shared Recreation Pathways</p> <p>a) Submit to EDQ IS detailed engineering plans certified by a RPEQ for shared recreation pathways generally in accordance with LGIA – Infrastructure Network Schedule 5 – Local Transport and the approved PoD.</p> <p>b) Construct the works generally in accordance with the certified plans required under part a) of this condition.</p> <p>c) Submit to EDQ IS ‘As Constructed’ plans, and asset register certified by a RPEQ in a format acceptable to Council</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to survey plan endorsement for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>
26.	<p>Water and Sewer – Final Precinct Network Plan</p> <p>Submit to EDQ IS a Water and Sewer Final Precinct Network Plan, approved by Unitywater.</p> <p>The Water and Sewer final precinct network plan must identify any high-risk Infrastructure. Low-risk infrastructure is all other infrastructure.</p> <p>High-risk infrastructure may include the following:</p> <p>a) an active asset, being infrastructure categories other than pipelines, which contain electrical or mechanical equipment such as pumping stations, treatment plants, reservoirs and the like;</p> <p>b) is not the subject of design guidelines in the Infrastructure Standards, the SEQ Code or Unitywater’s Connection Administration Manual;</p> <p>c) is not compliant with the SEQ Water Supply and Sewerage Design and Construction Code or Unitywater’s Connections Administration Manual;</p> <p>d) is to be constructed in a natural or built environment that presents other than a low-risk e.g. a sewer main that crosses a creek;</p> <p>e) is to be constructed using emerging, untested or innovative technology, materials or design;</p> <p>f) temporary infrastructure; or</p> <p>g) is to service the Town Centre Lot within Precinct 8.</p>	<p>Prior to the commencement of works for the first stage</p>
27.	<p>Water and Sewer – High-Risk Infrastructure</p> <p>a) Submit to EDQ IS detailed water and sewer reticulation design plans approved by Unitywater for the water and sewer infrastructure identified as ‘high-risk infrastructure’ in the Final Precinct Network Plan referred to in condition 26 approved by Unitywater.</p>	<p>a) Prior to commencement of works for the relevant stage</p>

	<ul style="list-style-type: none"> b) Construct the works generally in accordance with the approved plans required under part a) of this condition. c) Submit to EDQ IS certified by a RPEQ 'as-constructed' plans, asset register, pressure and bacterial test results in accordance with Unitywater's current adopted standards. 	<ul style="list-style-type: none"> b) Prior to survey plan endorsement for the relevant stage c) Prior to survey plan endorsement for the relevant stage
28.	<p>Water and Sewer – Low-Risk Infrastructure</p> <ul style="list-style-type: none"> a) Submit to EDQ IS detailed water and sewer reticulation design plans certified by a RPEQ for the water and sewer infrastructure identified as 'Low-Risk Infrastructure' in the final precinct network plan approved by Unitywater referred to in condition 26. b) Construct the works generally in accordance with the certified plans required under part a) of this condition. c) Submit to EDQ IS certified by a RPEQ 'as-constructed' plans, asset register, pressure and bacterial test results in accordance with Unitywater's current adopted standards. 	<ul style="list-style-type: none"> a) Prior to commencement of works for the relevant stage b) Prior to survey plan endorsement for the relevant stage c) Prior to survey plan endorsement for the relevant stage
29.	<p>Compliance Assessment – Stormwater Management (Quality)</p> <ul style="list-style-type: none"> a) Submit to EDQ IS for Compliance Assessment an updated version of the 'Aura Precincts 6-10, 16 Stormwater Quality Management Plan', prepared by DesignFlow, demonstrating the following: <ul style="list-style-type: none"> i) Assessment and mitigation of the residual loads (sediment, total phosphorus, total nitrogen etc.) arising from the EPZ and the development footprint. ii) Water quality outcomes for Bells Creek and Pumicestone Passage generally consistent with the residual loads and/or concentrations presented in the Caloundra South Precincts 6 to 10, 16: Stormwater Quality Management Plan Version 6 (BMT-WBM, July 2015). iii) The inclusion and assessment through the MUSIC modelling of Bells Creek Arterial catchment. iv) That removal rates for the gross pollutant traps for sediment and nutrients are set to zero in the MUSIC model. v) That the treatment removal performance from MUSIC modelling is provided for both default k and C* values for the constructed wetlands and the newly adopted k and C* values (200m/yr and 0.75mg/L). vi) that any low gradient swales can be maintained in the long term. vii) That the improvement in water quality afforded by the revegetation of the EPZ is included in the modelling. viii) That the modelling of the existing site condition has been undertaken using the rainfall-runoff and pollutant parameters developed for the area and presented in 	<ul style="list-style-type: none"> a) Prior to commencement of works for the first stage

	<p>the Caloundra Downs Baseline Monitoring Program Final Report (BMT WBM 2011).</p> <p>b) Submit to EDQ IS for Compliance Assessment revised detailed concept plans, certified by a RPEQ, for the proposed stormwater treatment devices required to satisfy the requirements outlined in part a) of this condition.</p> <p>c) Submit to EDQ IS, certified by a RPEQ, detailed design plans for the proposed stormwater treatment devices generally in accordance with LGIA Infrastructure Network 4 – Stormwater Part C – Infrastructure Standards and the endorsed Stormwater Quality Management Plan and the endorsed concept plans required under parts a) and b) of this condition.</p> <p>d) Construct the works generally in accordance with the certified plans required under part c) of this condition.</p> <p>e) Submit to EDQ IS ‘as constructed’ drawings, including an asset register, certified by a RPEQ, in a format acceptable to the Council.</p>	<p>b) Prior to commencement of works for the first stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p> <p>d) Prior to survey plan endorsement for the relevant stage</p> <p>e) Prior to survey plan endorsement for the relevant stage</p>
<p>30.</p>	<p>Compliance Assessment – Stormwater Management (Quantity)</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed updated concept plans for the proposed open drainage works through Lots 9213, 9214, 9041, 9038, 9031, 9044, 9025 and 9042, certified by a RPEQ, for the proposed stormwater drainage system generally in accordance with the LGIA Infrastructure Network 4 – Stormwater Part C – Infrastructure Standards and the approved PoD.</p> <p>b) Submit to EDQ IS for Compliance Assessment a Severe Storm Impact Statement for the overland flow in Precinct 8.4 (1% AEP stormwater pipe network), in accordance with Section 7.2.4 and 7.2.5 of QUDM. The stormwater design must not introduce any trapped sag.</p> <p>c) Submit to EDQ IS detailed design plans, certified by a RPEQ, for the proposed stormwater drainage system generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>d) Construct the works in accordance with the endorsed plans as required under part b) of this condition.</p> <p>e) Submit to EDQ IS ‘as constructed’ plans including an asset register and test results, certified by a RPEQ, in a format acceptable to the Council.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to commencement of works for the relevant stage</p> <p>c) Prior to commencement of works for the relevant stage</p> <p>d) Prior to survey plan endorsement for the relevant stage</p> <p>e) Prior to survey plan endorsement for the relevant stage</p>

31.	<p>Stormwater Quality Management Plan</p> <p>Submit to EDQ IS for a compliance assessment, an updated Stormwater Quality Management Plan that reflects the current layout, revised catchment boundaries and any amended WSUD location and design, including amended MUSIC model.</p>	Within 1 month of the amended approval date.
32.	<p>Public Transport</p> <p>Provide public transport and associated infrastructure in accordance with the STIA.</p>	As per the STIA
33.	<p>Street Lighting</p> <p>a) Design and install a Rate 2 street lighting system certified by a RPEQ to all roads, including footpaths/bikeways within road reserves.</p> <p>The design of the street lighting system must:</p> <ul style="list-style-type: none"> i) meet the relevant standards of Energex; ii) be acceptable to Energex as ‘Rate 2 Public Lighting’; iii) be endorsed by Council as the Energex ‘billable customer’; iv) be generally in accordance with Australian Standards AS1158 – ‘Lighting for Roads and Public Spaces. <p>Or the following:</p> <p>b) Submit to EDQ IS detailed engineering design plans certified by a RPEQ-electrical for Rate 3 (Council owned) street lighting to all roads, including footpaths/bikeways within road reserves generally in accordance with Australian Standards AS1158 –‘Lighting for Roads and Public Spaces’ and AS3000 – ‘SAA Wiring Rules’.</p> <p>c) Install the lighting generally in accordance with the certified plans required under part b) of this condition.</p> <p>d) Submit to EDQ IS ‘as-constructed’ plans and test documentation certified by a RPEQ-electrical in a format acceptable to Council.</p>	<p>a) Prior to survey plan endorsement for each stage</p> <p>b) Prior to commencement of works for each stage</p> <p>c) Prior to survey plan endorsement for each stage</p> <p>d) Prior to survey plan endorsement for each stage</p>
34.	<p>Electricity</p> <p>Submit to EDQ IS either:</p> <ul style="list-style-type: none"> a) written evidence from Energex confirming that existing underground low-voltage electricity supply is available to the newly created lots; or b) written evidence from Energex confirming that the applicant has entered into an agreement with it to provide underground electricity services. 	Prior to survey plan endorsement

35.	<p>Telecommunications</p> <p>Submit to EDQ IS documentation from an authorised telecommunication service provider confirming that an agreement has been entered into for the provision of underground telecommunication services to each new lot within the proposed subdivision.</p>	Prior to survey plan endorsement
36.	<p>Broadband</p> <p>Submit to EDQ IS a written agreement from an authorised telecommunications service provider that infrastructure within the development as defined under the Telecommunications Act 1997 can be provided in accordance with the Communications Alliance G645:2011 guideline, to accommodate services which are compliant with the Federal Government’s National Broadband Network policy.</p>	Prior to survey plan endorsement
37.	<p>Public Infrastructure – Damage, Repairs and Relocation</p> <p>Repair any damage to existing public infrastructure that occurred during works carried out in association with the approved development. Should existing public infrastructure require relocation, due to the approved development, the developer is responsible for these costs together with compliance with relevant standards and statutory requirements.</p>	Prior to survey plan endorsement for the relevant stage
38.	<p>Electric Vehicle Charging – Commercial</p> <p>a) Submit to EDQ Development Assessment, certification from a suitably qualified professional, that the following has been provided within sub-precinct 8.1:</p> <ul style="list-style-type: none"> i) A minimum of 10 dedicated vehicle charging spaces which include a Destination AC electric vehicle charger located within the parking bay. ii) The charging stations are to be easily visible and accessible and appropriately signposted to enable users to locate these spaces. iii) Charging points are to be located such that cables do not form a hazard for pedestrians or other vehicles whilst plugged in and not in use. <p>b) Updated plans indicating the location of all charging stations must be included with the certification.</p> <p>c) A staging plan is to be provided demonstrating how the charging stations are to be provided across sub-precinct 8.1 if all of the charging stations are not provided in the first development of the sub-precinct.</p> <p>Note: Basic AC charging, as defined in EDQ Practice Note 20, requires a dedicated AC circuit of 240 volts, minimum 20A, and installation of an EVSE charging unit able to supply 2.4-7kW of power to charge an EV.</p> <p>Note: Destination AC or DC charging, as defined in EDQ</p>	<p>a) As required by the staging plan in c)</p> <p>b) As required by the staging plan in c)</p> <p>c) Prior to the commencement of use for the first development in sub-precinct 8.1</p>

	Practice Note 20, requires three phase 415V, 20-32A, supplying 11-25kW of power. If three phase power is unavailable, single phase 40A is acceptable. Destination DC charging up to 25kW is the preferred 3 phase Destination Charging for commercial/retail development.	
Basement Carpark		
39.	<p>Excavation and Basement Design</p> <p>a) Submit to the EDQ IS an Excavation and Basement Report, certified by a RPEQ, including:</p> <ul style="list-style-type: none"> i) confirmation of design and performance criteria including standards and supporting documents used for the basis of design; ii) consistency with: <ul style="list-style-type: none"> 1. <i>Australian Standard AS 3798, Guidelines on Earthworks for Commercial and Residential Developments;</i> 2. the Geotechnical Shoring and Design Report submitted under condition 41 of this approval; iii) locations of cut and fill, and the character of material; iv) quantity of fill to be deposited; v) a maintenance regime for site access roads/tracks, ensuring they remain clean and free of material; vi) existing and proposed finished levels in reference to the Australian Height Datum and extending into the adjoining properties; vii) mitigation measures for the protection of adjoining properties and roads from ponding and/or nuisance from stormwater; and viii) Detailed Design and Construction Plans, including staging, for excavation and basement design, certified by a RPEQ. <p>b) Carry out excavation and basement work in accordance with the certified Detailed Design and Construction Plans submitted under part a) vii) of this condition.</p> <p>c) Submit to EDQ IS:</p> <ul style="list-style-type: none"> i) RPEQ certification that excavation and basement work has been undertaken in accordance with part b) of this condition; and ii) certified 'as-constructed' drawings for the excavation and basement work carried out in accordance with part b) of this condition. <p><i>NOTE: When submitting 'as constructed drawings', the preferred format is one letter/certificate listing all drawings and signed by the appropriate RPEQ for each discipline of engineering.</i></p>	<p>a) Prior to commencing work</p> <p>b) During construction</p> <p>c) Prior to commencement of use or BFP endorsement, whichever occurs first</p>
40.	<p>Groundwater Management Strategy</p> <p>a) Submit to EDQ IS a Groundwater Management Strategy (GMS), certified by a suitably qualified and experienced person, incorporating at a minimum:</p>	<p>a) Prior to commencing work</p>

	<ul style="list-style-type: none"> i) strategies for managing groundwater during all works phases; ii) an assessment of the groundwater conditions to determine appropriate construction management procedures, including modelling in accordance with <i>Australian Groundwater Modelling Guidelines, 2012</i>; iii) strategies for a situation where the groundwater inflow is excessive and additional pumping is required (i.e. cut-off drain); iv) details of the extent of drawdown including plots of groundwater contours and proposed mitigation measures to reduce the impact of drawdown on existing infrastructure and structures (i.e. buildings and services); v) strategies for the collection and treatment of stormwater to ensure the stormwater discharge conforms with current <i>Australian and New Zealand Environment and Conservation Council Guidelines</i>; and vi) confirmation that the GMS has been prepared with reference to the relevant documentation prepared in accordance with other related conditions of this approval. <p>b) Construct the approved development in accordance with the GMS submitted under part a) of this condition.</p>	<p>b) During construction</p>
<p>41.</p>	<p>Shoring</p> <ul style="list-style-type: none"> a) Submit to EDQ IS a Geotechnical, Shoring and Design Report (GSDR), certified by a suitably qualified and experienced RPEQ. The GSDR must include: <ul style="list-style-type: none"> i) confirmation works are designed to meet the following <i>Australian Standards</i>: <ol style="list-style-type: none"> 1. <i>AS1726 Geotechnical Site Investigation</i>; 2. <i>AS2159 Piling - Design and Installation</i>; 3. <i>AS4678 Earth Retaining Structures</i>; ii) a Geotechnical Investigation Plan and Geotechnical Analysis including: <ol style="list-style-type: none"> 1. details on the stratigraphy, groundwater level, excavatability and profiling; 2. a table detailing geotechnical design parameters used to undertake detailed design; 3. where excavations will occur in rock, an assessment of potential defect risks (e.g. joints, fault zones, volcanic intrusions and weak zones) and mitigation measures to avoid and manage potential defect risks including impacts to adjacent buildings, structures and infrastructure; iii) analysis of groundwater hydrology, including: <ol style="list-style-type: none"> 1. considerations of seasonality, tidal effects, possible fractured ground at depth 2. impact of dewatering and potential drawdown effects of construction and/or changed water table levels during demolition 	<p>a) Prior to commencing work</p>

	<ul style="list-style-type: none"> 3. temporary decommissioning of basement pumps, all construction phases and the ultimate development; iv) analysis and measures to minimise impacts to existing buildings and public utilities, including: <ul style="list-style-type: none"> 1. a dilapidation survey of buildings located within 20m of works and Heritage Places (comprising structures) located within 50m of works; 2. an assessment of potential impacts to public utilities located within 20m of works and how potential impacts will be avoided and/or mitigated; v) assessments of construction methodology impacts, including: <ul style="list-style-type: none"> 1. a Basement Retention and Foundation Assessment detailing key aspects of the site (e.g. rock excavatability, stability, rock and soil stress profile, groundwater modelling, seepage and dewatering assessment); 2. critical geotechnical model sections of all excavations, with reference to the geometry of the retention systems, load and design assumptions, load cases, structural section properties/material parameters, including analysis output (e.g. moment and shear envelopes, deflections, changes to stress and groundwater levels during temporary and permanent stages of work) and assessment of the installation of the retention system on adjacent properties; 3. design drawings and technical specifications, including any temporary and permanent structures; 4. groundwater chemistry assessment and proposed on-site treatment prior to discharge from site; 5. basement ground water design rationale (e.g. clarifying whether basements are fully tanked, designed for full hydrostatic groundwater pressure, whether ground water is collected via a subsoil collection system and pumped including details of where ground water is pumped to). 6. evidence that that groundwater quality has been properly analysed and evidence that it complies with ANZECC standards for groundwater quality. vi) an analysis of the durability aspects for buried concrete and reinforcement of areas that will be incorporated into the approved development. <p>b) Construct the approved development in accordance with the GSDR certified under part a) of this condition.</p>	<p>b) During construction</p>
--	--	-------------------------------

Railway Corridor		
42.	<p>Compliance Assessment – Filling and Excavation</p> <p>For any lots adjacent to the north side of the railway corridor plus Lots 8022, 8024 and 8025 and adjoining road reserves:</p> <p>a) Submit to EDQ IS for compliance assessment earthworks plans, certified by a RPEQ, generally in accordance with <i>AS3798 – 2007 “Guidelines on Earthworks for Commercial and Residential Developments</i>. The plans shall include the following:</p> <ul style="list-style-type: none"> i) Existing surface and indicative finished surface levels and cross sections for the subject site and the adjoining railway corridor; ii) Retaining wall and/or batter details at the interface between the subject site and the railway corridor; iii) A geotechnical assessment of the site; iv) Details of dispersive soils that will be disturbed and the proposed treatment thereof; and v) Details of areas where surplus soils are to be stockpiled. <p>b) Submit to EDQ IS detailed earthworks plans certified by a RPEQ generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>c) Carry out the earthworks generally in accordance with the certified plans submitted under part b) of this condition.</p> <p>d) Submit to EDQ IS certification from a RPEQ that all earthworks have been carried out generally accordance with the certified plans submitted under part b) of this condition and that any unsuitable material encountered has been treated or replaced with suitable material.</p>	<p>a) Prior to commencement of the relevant site works</p> <p>b) Prior to commencement of the relevant site works</p> <p>c) Prior to commencement of use</p> <p>d) Prior to commencement of use</p>
43.	<p>Compliance Assessment – Stormwater Management – Railway Corridor</p> <p>For any lots adjacent to the north side of the railway corridor plus Lots 8022, 8024 and 8025 and adjoining road reserves:</p> <p>a) Submit to EDQ IS for compliance assessment a Stormwater Management Plan certified by a RPEQ that demonstrates compliance with the STIA in relation to ensuring Q100 flood immunity for the CAMCOS (or future CAMCOS) Land Contribution.</p> <p>b) Submit to EDQ IS detailed engineering plans certified by a RPEQ generally in accordance with the endorsed plan required under part a) of this condition.</p> <p>c) Construct the works generally in accordance with the certified plans submitted under part b) of this condition.</p>	<p>a) Prior to commencement of the relevant site works</p> <p>b) Prior to commencement of the relevant site works</p> <p>c) Prior to commencement of use and to be maintained</p>

	d) Submit to EDQ IS, verification by a suitably qualified and experienced RPEQ, that all stormwater management works have been constructed in accordance with this condition.	d) Prior to survey plan endorsement for the relevant stage
Landscape and Environment		
44.	<p>Compliance Assessment – Streetscape Works</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed streetscape works drawings, including a schedule of proposed standard and non–standard assets to be transferred to Council, certified by an AILA, generally in accordance with the approved PoD:</p> <p>The detailed streetscape plans are to include:</p> <ul style="list-style-type: none"> i) location and type of street lighting in accordance with Australian Standard AS1158 – <i>‘Lighting for Roads and Public Spaces’</i>. ii) footpath treatments. iii) location and types of streetscape furniture. iv) location and size of stormwater treatment devices; and v) street trees, including species, size and location. <p>b) Construct the works generally in accordance with the endorsed streetscape plans as required under part a) of this condition.</p> <p>c) Submit to EDQ IS ‘As Constructed’ plans and asset register in a format acceptable to Council certified by an AILA.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to survey plan endorsement for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>
45.	<p>Compliance Assessment – Landscape Works (Parks & Open Space)</p> <p>a) Submit to EDQ IS for Compliance Assessment detailed landscape plans, including a schedule of proposed standard and non–standard assets to be transferred to Council, certified by an AILA, for works within the proposed parkland and open space areas generally in accordance with <i>the LG IA – Infrastructure Network Schedule 1 – Open Space</i> and the approved PoD.</p> <p>b) Construct the works generally in accordance with the endorsed plans required under part a) of this condition.</p> <p>c) Submit to EDQ IS ‘As Constructed’ plans and asset register certified by an AILA in a format acceptable to Council.</p>	<p>a) Prior to commencement of works for the relevant stage</p> <p>b) Prior to survey plan endorsement for the relevant stage</p> <p>c) Prior to survey plan endorsement for the relevant stage</p>
46.	<p>Acid Sulfate Soils Management Plan (ASSMP)</p> <p>a) Where acid sulfate soils are found on site, submit to EDQ IS an Acid Sulfate Soils Management Plan (ASSMP). The ASSMP must be:</p>	<p>a) Prior to commencement of or during site works for the relevant stage</p>

	<ul style="list-style-type: none"> i) prepared generally in accordance with the current <i>State Planning Policy</i>, in force when the ASSMP is submitted for certification and relevant guidelines; and ii) certified by a suitably qualified professional in soils and/or erosion sediment control. <p>b) Excavate, remove and/or treat on-site all acid sulfate soils generally in accordance with the certified ASSMP.</p>	<p>b) Prior to survey plan endorsement for the relevant stage</p>
47.	<p>Erosion and Sediment Management Plan</p> <ul style="list-style-type: none"> a) Submit to EDQ IS an Erosion and Sediment Control Plan (ESCP), certified by a RPEQ or an accredited professional in erosion and sediment control, generally in accordance with the following guidelines/documents: <ul style="list-style-type: none"> i) Urban Stormwater Quality Planning Guidelines 2010 (DEHP); ii) Best Practice Erosion and Sediment Control (International Erosion Control Association). iii) Conceptual Erosion and Sediment Control Plans Dwg No. B12201-DA36 to DA 47 dated 26/07/13 in the Civil Engineering Services Report Reconfiguration of a Lot Application dated 26/05/16 prepared by Calibre Consulting. b) Implement the certified ESCP as required under part a) of this condition. 	<ul style="list-style-type: none"> a) Prior to commencement of site works for each stage b) At all times during construction
48.	<p>Acoustic Treatment – Noise Barrier</p> <ul style="list-style-type: none"> a) Submit to EDQ IS detailed engineering plans, certified by a RPEQ, for the noise barrier(s) generally in accordance with <i>PDA Engineering Guideline No. 13 – Acoustic treatments</i> and the Transport Noise Impact Assessment dated 26/05/2016 and 22/08/2016 prepared by ASK Acoustic and Air Quality and the approved PoD. b) Construct the noise barrier(s) generally in accordance with the certified plans required under part a) of this condition. c) Submit to EDQ IS ‘as-constructed’ plans and an asset register, certified by a RPEQ, of the barrier(s). 	<ul style="list-style-type: none"> a) Prior to commencement of site works for the relevant stage b) Prior to survey plan endorsement for the relevant stage c) Prior to survey plan endorsement for the relevant stage
49.	<p>Compliance Assessment – Environmental Protection Zone Rehabilitation</p> <ul style="list-style-type: none"> a) Submit for Compliance Assessment to EDQ IS a detailed Environmental Rehabilitation Plan certified by a suitably qualified environmental scientist/engineer for rehabilitation works within Lots 9027, 9033, 9034, 9035, 9036 and 9037 in accordance with the LGIA. 	<ul style="list-style-type: none"> a) Prior to survey plan endorsement for the first stage

	<p>b) Commence construction of the works generally in accordance with the endorsed Environmental Rehabilitation Plan required by part a) of this condition.</p> <p>c) Submit to EDQ DA evidence from a suitably qualified environmental scientist/ engineer that the works have been inspected and completed generally in accordance with parts a) and b) of this condition.</p>	<p>b) Within one year of the registration of the first Plan of Subdivision</p> <p>c) In accordance with the LGIA</p>
50.	<p>Water Quality Monitoring – Bells Creek North and South</p> <p>Submit to EDQ IS pre-, during and post-construction water quality monitoring data for surface stormwater and groundwater in Bells Creek North and South catchments generally in accordance with the updated Caloundra South Water Quality Management Plan (CSWQMP) prepared by BMT WBM endorsed on 15/09/16.</p>	As per the CSWQMP
51.	<p>High Bank – Bells Creek South and Bells Creek North</p> <p>Submit to EDQ IS a copy of the endorsed plan for the high bank of Bells Creek North and Bells Creek South signed by an authorised representative of the Council and the Original Developer in accordance with the LGIA.</p>	Prior to survey plan endorsement for the first stage.
52.	<p>Sub-Precinct 9.1 – On Street Landscaping</p> <p>Planter beds are required to be provided between both perpendicular and parallel parking bays on both sides of Access Street E in accordance with the approved road profile, with exception to locations where access driveways are required. The detail of the planter beds will be required to be submitted and endorsed as part of the Compliance Assessment for Streetscape Works in Condition 44.</p>	Prior to commencement of works for the relevant stage
53.	<p>Local Recreation Park Lot 9001 and 9002</p> <p>a) Park Lot 9001 to be provided at the same time as the plan sealing of Stage 78F or 78E.</p> <p>b) Park Lot 9002 to be provided at the same time as the plan sealing of Stage 78C or 78G.</p>	Prior to survey plan endorsement for the relevant stage
Surveying, land transfers and easements		
54.	<p>Land Transfers – Contaminated Land</p> <p>Demonstrate to EDQ DA that all land to be transferred in fee simple to a trustee is not registered on either the Environmental Management or the Contaminated Land Registers.</p>	Prior to survey plan endorsement for the relevant stage
55.	<p>Land Transfers – Drainage</p> <p>Transfer, in fee simple, to Council as trustee land identified for drainage purposes on the approved RoL plans.</p>	In accordance with the LGIA
56.	<p>Land Transfers – Park and Open Space</p> <p>Transfer, in fee simple, to Council as trustee, land identified for park and open space purposes on the approved RoL plans.</p>	In accordance with the LGIA

57.	<p>Land Transfer – Environmental Protection</p> <p>Transfer, in fee simple, at no cost to Council as trustee Lots 9027, 9033, 9034, 9035, 9036, 9037, 9217, 9218, 9219, 9220, and 9221 for environmental purposes.</p>	In accordance with the LGIA
58.	<p>Land Transfer – CAMCOS Rail Corridor</p> <p>Transfer, in fee simple, to the State of Queensland (represented by DTMR) Lots 8018, 8019, 8020 and 8021 for rail purposes.</p>	In accordance with the STIA
59.	<p>Serviced Land Transfer – Local Government – Community</p> <p>Transfer, in fee simple, serviced land to Council as trustee Lot 8029, Lot 8033 and Lot 8048 for community purposes.</p>	In accordance with the LGIA
60.	<p>Land Transfers – State Community Facilities</p> <p>Transfer, in fee simple, to the entity nominated by MEDQ serviced land Lot 8025 for state community services.</p>	At registration of survey plan for the relevant stage
61.	<p>Easements over Infrastructure</p> <p>Public utility easements must be provided, in favour of and at no cost to the public utility provider, over infrastructure that becomes contributed assets.</p> <p>The terms of the easements must be to the satisfaction of the Chief Executive Officer or equivalent office holder of the entity which ultimately is to takeover and maintain the Contributed Assets.</p>	Prior to survey plan endorsement for the relevant stage
62.	<p><i>Condition deleted – right of way easement</i></p>	
63.	<p>Compliance Assessment - Publicly Accessible Areas Management Plan (East Pedestrian Connection, West Pedestrian Connection and Main Street only)</p> <p>a) Submit to EDQ DA for Compliance Assessment a Publicly Accessible Areas Management Plan for the delivery of public access through Sub-Precinct 8.1 of the PoD.</p> <p>The plan must provide for the following:</p> <ul style="list-style-type: none"> i) Physical descriptions of the public accessible areas and their functions; ii) Site specifications; iii) Area map; iv) Issues and constraints; v) Identify the type of outdoor events that are suitable for the area. vi) The eastern connection from the Main Street, described as the Eastern Pedestrian Link (refer figure 17 sub precinct 8.1 of the PoD) must be open for pedestrian access between the hours of 6.00am to 10.00pm seven days a week. These hours can be further extended to accommodate longer business operating hours of premises located within the mall. 	a) Prior to survey plan endorsement for the relevant stage

	<p>vii) The western connection from the Main Street described as the Western Pedestrian Link (refer figure 17 sub precinct 8.1 of the PoD) must be open for pedestrian access 24 hours seven days a week.</p> <p>viii) The Main Street (refer figure 17 sub precinct 8.1 of the PoD) is to be a private road that provides 24 hour, 7 days per week, vehicular, cyclist and pedestrian access to the general public. In addition, the plan must provide for the maintenance of the road and all works and embellishments in or on the road including works or assets owned or controlled by other entities. Access must be provided to those other entities for this purpose.</p> <p>ix) The applicant must provide any documentation to EDQ, or an entity nominated by EDQ, including but not limited to easements, covenants or other documents, in favour of MEDQ or the other entity:</p> <ol style="list-style-type: none"> 1. necessary to; or 2. as required by MEDQ to secure compliance with the requirements in viii) of this condition. <p>b) An access easement is to be entered into with parties who require direct access from the private roads as shown in the approved PoD, to lots in sub-precinct 8.2.</p> <p>c) Provide evidence of easements required in condition b).</p>	<p>b) Prior to sale of the relevant lot in sub-precinct 8.2 to a third party</p> <p>c) Prior to sale of the relevant lot in sub-precinct 8.2 to a third party</p>
<p>64.</p>	<p>Small lot development easements for lots $\leq 300m^2$</p> <p>a) For standard format lot sub-divisions where a lot is $300m^2$ or less and the lot adjoins another lot $300m^2$ or less and the proposed construction of adjacent proposed walls will be a circumstance mentioned in section 94(2)(a) of the <i>Land Title Act 1994</i> (LTA) to permit the application and registration of high density development easements, provide high-density development easements under Part 6 Division 4AA of the LTA in registrable form in respect of each affected lot to allow reciprocal rights for 1 or more of the following purposes (but only where those relevant circumstances will exist):</p> <ol style="list-style-type: none"> i) support; ii) shelter; iii) projections; iv) maintenance; and v) roof water drainage; <p>OR</p> <p>b) Provide reciprocal easements created under Part 6 Division 4 LTA in registrable form for 1 or more of the above purposes (but only where those relevant circumstances will exist).</p> <p><i>*High-density development easements created under Part 6 Division 4AA of the Land Title Act 1994 are not required to be identified on a plan of survey.</i></p>	<p>At or prior to survey plan endorsement for the relevant stage</p>

65.	<p>Small lot development easements for lots >300m²</p> <p>If a lot is more than 300m² and adjoins another lot irrespective of the size of the adjoining lot and the construction of adjacent proposed walls will be a circumstance mentioned in section 94(2)(a) of the <i>Land Title Act 1994</i>, provide reciprocal easements in registrable form for 1 or more of the above purposes (but only where those relevant circumstances will exist).</p>	At or prior to survey plan endorsement for the relevant stage
Infrastructure Charges		
66.	<p>For Sub Regional, Municipal and State Charges</p> <p>In lieu of paying the sub regional, municipal and state infrastructure charges, the applicant will provide infrastructure in accordance with the LGIA and STIA.</p>	As required by the LGIA and STIA
67.	<p>Implementation Charge</p> <p>The applicant must pay to the MEDQ the Implementation Charge calculated in accordance with the IFF indexed (or any document(s) that replaces the IFF to the date of payment and in accordance with the LGIA.</p>	As required by the IFF & LGIA
Compliance Assessment Uses		
68.	<p>Plans and Supporting Information – PoD</p> <p>a) Submit to EDQ DA, for compliance assessment plans/supporting information for the compliance assessable uses listed in the approved Plan of Development for assessment against the approved PoD.</p> <p>b) The documentation submitted under part a) of this condition is to detail and/or include the following where applicable:</p> <ul style="list-style-type: none"> i) site location ii) lot size and configuration; iii) plans for each building (site plan, floor plans, elevations, sections, roof plans, external building materials and finishes, private and semi-private open space etc.); iv) building height, gross floor area and site cover, number of dwelling units and bedrooms; v) interface with adjoining land uses; vi) on-site access, bicycle and vehicle parking and servicing arrangements (waste collection points, wash-down bays, waste bin capacity, electric vehicle recharging stations etc); vii) short duration pick up/drop off areas (taxi/ride share/school drop off); viii) entry and exit points for vehicles, pedestrians and/or cyclists; ix) public realm and landscape plans; x) specialist assessment reports as required that may include traffic, civil engineering, geotechnical, flooding, acoustics and air quality. 	<p>a) Prior to commencement of building works.</p> <p>b) Prior to commencement of building works.</p>

	<p>xi) an assessment of compliance against the approved Aura Western Locality Precincts 6, 11, 13 and 14 (parts) Plan of Development (Parts 1 and 2), dated December 2020 and prepared by Urbis.</p> <p>c) Following EDQ endorsement of the compliance assessment for part (a) above, the following specialist technical reports are to be submitted to EDQ IS, through the CPM process;</p> <p>i) Site Based Construction Management Plan prepared by the principal site contractor that manages the following:</p> <ol style="list-style-type: none"> 1. noise and dust in accordance with the EP Act; 2. stormwater flows around and through the site without increasing the concentration of total suspended solids or Prescribed Water Contaminants (as defined in the EP Act), causing erosion, creating any ponding and causing any actionable nuisance to upstream and downstream properties; 3. contaminated land, where required under a site suitability statement prepared in accordance with section 389 of the EP Act; 4. complaints procedures; 5. site management; 6. for the provision of safe and functional alternative pedestrian and cycle routes, past, through or around the site; 7. to mitigate impacts to public sector entity assets, including street trees, on or external to the site; 8. for safe and functional temporary vehicular access points and frequency of use; 9. for the safe and functional loading and unloading of materials including the location of any remote loading sites; 10. for the location of materials, structures, plant and equipment; 11. of waste generated by construction activities; 12. detailing how materials are to be loaded/unloaded; 13. of proposed external hoardings and gantries (with clearances to street furniture and other public sector entity assets); 14. of employee and visitor parking areas; 15. of anticipated staging and programming; 16. for the provision of safe and functional emergency exit routes; and 17. any out of hours work as endorsed via Compliance Assessment. <p>ii) Traffic Management Plan (TMP), certified by a person holding a current Traffic Management Design qualification which addresses the following:</p> <ol style="list-style-type: none"> 1. traffic around and through the site during and outside of construction work hours; 	<p>c) Prior to commencement of building works.</p>
--	--	--

	<ul style="list-style-type: none"> 2. provision for the safe and functional management of pedestrian and cyclist traffic, including alternative pedestrian routes past, through or around the site; 3. provision of parking for workers and materials delivery; 4. risk identification, assessment and identification of mitigation measures; 5. ongoing monitoring, management review and certified updates (as required); and 6. traffic control plans and/or traffic control diagrams, prepared in accordance with <i>Austrroads Guide to Temporary Traffic Management</i>, for any temporary part or full road closures. <p>iii) Earthworks and Erosion and Sediment Control Plan (ESCP), certified by a RPEQ or an accredited professional in erosion and sediment control (CPESC), generally in accordance with the following guidelines:</p> <ul style="list-style-type: none"> 7. The construction phase stormwater management design objectives of the State Planning Policy 2017 (Appendix 2 Table A); 8. Healthy Land and Water Technical Note: <i>Complying with the SPP - Sediment Management on Construction Sites</i> 9. Urban Stormwater Quality Planning Guidelines 2010 (DEHP); and 10. Best Practice Erosion and Sediment Control (International Erosion Control Association). <p>iv) Acid Sulfate Soils Management Plan where ASS are found on site, prepared in accordance with the <i>Queensland Acid Sulfate Soil Technical Manual Soil Management Guidelines v4.0 2014</i> (as amended from time to time).</p> <p>v) Stormwater Quality Management Plan certified by a RPEQ/AILA generally in accordance with the approved Stormwater Quality Management Plan and the LGIA <i>Infrastructure Network 4 – Stormwater Part C – Infrastructure Standards</i>.</p>	
<p>69.</p>	<p>Plans and Supporting Information – PoD (Detailed Design Town Centre – Architectural)</p> <ul style="list-style-type: none"> a) Submit to EDQ Development Assessment, for compliance assessment, detailed design of the following elements: <ul style="list-style-type: none"> i) Detailed technical designs and architectural drawings prepared generally in accordance with the endorsed architectural plans under Condition 68, which address the following elements: <ul style="list-style-type: none"> 1. South 'Activation zone treatment' plan; and 2. Elevation Details. b) Implement the requirements of the approved plan/s and maintain the development as required. 	<ul style="list-style-type: none"> a) Prior to commencement of building works. b) As required

STANDARD ADVICE

Please note that to lawfully undertake development, it may be necessary to obtain approvals other than this PDA development approval. For advice on other approvals that may be necessary in relation to your proposal, it is recommended that you seek professional advice.
