Dear Applicant

PDA Decision Notice

Notice given under section 89(1) of the Economic Development Act 2012

Priority Development Area (PDA): Waraba
PDA Development Type: Development Permit for Sewer Infrastructure
Property Location: 67-177 Litherland Road WAGTAIL GROVE QLD
4513
Property Description: Lot 4 RP 886161

On the 17th of June 2026, Economic Development Queensland (EDQ) decided to approve **all** of the above PDA Development Application subject to PDA Development Conditions in accordance with the attached PDA Decision Notice.

The Decision Notice and approved plans and documents can also be viewed on EDQ's website at [Current applications and approvals](#).

If you require any further information, please contact Justin Lee (Principal Engineer) on 3214 9501 or by email at justin.lee@edq.qld.gov.au.

Yours sincerely

Xi Gan
Acting Manager
Development Services
Economic Development Queensland

Cc: City of Moreton Bay Council, Unitywater

Submitting documentation to EDQ

Where a condition of this approval requires documentation to be submitted to EDQ, use the following submission pathways:

- a) For conditions requiring Compliance Assessment via the [EDQ Customer Portal](#) or via developmentservices@edq.qld.gov.au.
- b) For conditions requiring the submission of material related to the [Certification Procedures Manual \(CPM\)](#) process via the CPM [Digital Submission system](#).

PDA Development Conditions

No.	Condition	Timing
OPERATIONAL WORKS		
1	Connection Approval Conditions	
	This water approval authorises and is limited to connection of network infrastructure and property services infrastructure at Lot 4 RP886161 & Lot 5 C311690 to Unitywater's network infrastructure, subject to the following conditions.	
1a	When approval lapses	
	This water approval lapses if the connection is not completed within 4 years after the date of this water approval.	At all times.
1b	Authority to enter	
	The property owner authorises Unitywater to enter upon the subject land to carry out work associated with the connection,	At all times.

PDA Development Conditions		
No.	Condition	Timing
	and read, replace and or maintain the water meter(s) and or sewerage connection point, and all associated pipes and fittings.	
1c	Connection(s) to Unitywater sewerage network(s)	
	Submit a request to Unitywater for Private Works to perform the necessary sewerage live works network connection(s) for the development. Note 1: Unitywater will not carry out the network connection works unless it is satisfied that all necessary approvals have been obtained and relevant payments of infrastructure charges have been made. Note 2: Works on, or in close proximity to, existing Unitywater infrastructure require consultation with Unitywater Private Works prior to commencement of construction. Private Works shall be contacted (allow a minimum of five working days for processing) prior to commencing work. The requirement for a Planned Network Intervention (PNI) application will require additional processing time.	After the new sewerage network infrastructure has been accepted 'On-Maintenance' by Unitywater
1d	Cost for existing infrastructure alterations or relocations	
	Carry out any change to Unitywater's existing infrastructure authorised by this approval at no cost to Unitywater.	At all times during construction and until works are accepted 'Off-Maintenance'.
1e	Easements	
	Provide easements over water supply mains, sewerage gravity mains and rising mains: 1. In accordance with the South East Queensland Water Supply and Sewerage Design and Construction Code; and 2. With Unitywater's most current registered dealing held by the State Department of Natural Resources, Mines and Energy without alteration or amendment.	Prior to the connection to Unitywater network.
2	Public Infrastructure (Damage, repairs and relocation)	
	a) Repair any damage to existing public infrastructure caused by works carried out in association with the approved development. b) Should existing public infrastructure require repair or relocation, due to the approved development and/or works associated with the approved development, repair and/or relocate the public infrastructure at no cost to	a) Prior to survey plan endorsement for the relevant stage b) Prior to survey plan endorsement

	others and in accordance with statutory requirements and adopted design standards.	for the relevant stage
Network Works Conditions		
3a(i)	Construct approved Network Works design	
	1. Construct the water supply and sewerage Network Works in accordance with: a) conditions of this water approval; b) the documents and drawings as listed in the Table of Approved Documents and Drawings; and c) The water Infrastructure agreement - '<i>Waraba Neighbourhood Development Plan 1 & 2 (Precincts 1 to 6), Rivermont- Sewer and Water</i>' (WIA), executed on 24-12-2025. 2. Generate as-constructed drawings and data which detail the works constructed in accordance with the <i>South East Queensland Water Supply and Sewerage Design and Construction Code – Asset Information Specification</i> and submit these to Unitywater's satisfaction. This condition is imposed under section 99BRDJ of the <i>South-East Queensland Water (Distribution and Retail Restructuring) Act 2009</i>.	1. At all times during construction and until Network Works are accepted 'Off-Maintenance'. 2. Prior to issue of the Certificate of On-Maintenance.
3a(ii)	Correspondence, Notifications, Key Contacts.	
	Ensure all written and email correspondence relating to this approval from the Constructor to Unitywater is issued directly by the Applicant and not delegated to a Third Party, i.e. correspondence must not be delegated to the Principal Contractor or other parties. This includes but is not limited to: 1. Fortnightly Progress Reports to Unitywater, 2. Construction Support requests, 3. Variation requests, and 4. Inspection requests, including On-Maintenance Inspections. During construction all email correspondence must be addressed to the Unitywater Primary and Secondary Key Contacts, with all other Key Contacts copied. During the course of the works, both the Applicant and Unitywater shall notify the other by email of any changes to the Key Contacts nominated below.	Prior to request for a Pre-Start Meeting.

3a(iii)	Caboolture West (Waraba) NDP2 Trunk Gravity Sewer Package 1 Delivery Program																			
	Submit to Unitywater and obtain Unitywater acceptance for a Sewer Infrastructure Delivery Program ('Full Works Program') detailing delivery of the full scope of works. Note: The Full Works Program shall include Milestone Events for all required notifications, reporting and inspections			With request for a Pre-Start Meeting.																
3a(iv)	Fortnightly Progress Reporting																			
	Submit Fortnightly Progress Reports by email to the Unitywater Key Contacts (refer condition 2.01B). Notes: Unitywater and the Applicant shall agree on the form and content of the Fortnightly Progress Reports prior to the Pre-Start Meeting. The Applicant shall regularly identify and advise on any task dates or durations that have deviated from the previously submitted Full Works Program.			Initially on the Pre-Start Meeting date and then every 2 weeks until Acceptance On-Maintenance of the full extent of works.																
3b(i)	Pre-Start Meeting																			
	Construction of the sewerage works must not commence until a joint Pre-Start Meeting has occurred, between: 1. the responsible consulting engineer; 2. the principal contractor and the subcontractor(s), if any; and 3. a Unitywater representative. Note: Construction of the sewerage network works must not commence until a joint Pre-Start Meeting has occurred.			Prior to the commencement of construction.																

PDA Development Conditions		
No.	Condition	Timing
	Unitywater recommends that the design consulting engineer or its appointed representative attends this meeting.	
3b(ii)	Submission of documentation for acceptance by Unitywater as a pre-requisite to Pre-Start Meeting	
	Submit Principal Contractor (Person in Charge of Business Undertaking) documentation and obtain acceptance for all documentation from Unitywater that it is project specific and fit for purpose. 1. Quality Management Plan, 2. Construction Management Plan, 3. Contractor Insurances, 4. Safe Work Method Statements / Job Hazard Analysis, 5. PLSL payment confirmation, 6. Inspection and Test Plans 'ITPs' with nominated responsibilities and Testing/Witness/Hold Points, noting provision and effective management of ITPs by supervising RPEQ is an SEQ Code requirement 7. Pipe layer accreditation with certificate and/or PE welding accreditation with certificate for labourer(s) undertaking works 8. Attestation, signed by a suitably qualified and authorised representative of the holder of this water approval, that all statutory approvals that are required for lawful delivery of the Sewerage Network Infrastructure have been obtained. 9. Copies of all statutory approvals that are required for lawful construction of the sewerage network infrastructure. Geotechnical investigation and test reports with written confirmation from an RPEQ that the trench support design is appropriate, based on the assumed soil type, stiffness, and conditions used in the pipeline structural design, OR where a change to the trench support design is required for any pipe segment, submit RPEQ certified details of the proposed design change to Unitywater.	Prior to requesting a Pre-Start Meeting
3c	Works at Applicant's expense	
	The Applicant is responsible for all costs associated with the works that need to be constructed to comply with conditions unless otherwise stated in the condition.	At all times during construction and until works are accepted 'Off-Maintenance'.
3d	Standards	
	Construct all works in accordance with the approved drawings, the South East Queensland Water Supply and Sewerage Design and Construction Code, Unitywater's Connections	At all times during construction and until works are accepted

PDA Development Conditions		
No.	Condition	Timing
	Administration Manual, other conditions stated in this Decision Notice for a water approval. Note: Where works shown on the approved drawings have an omission, or are inconsistent with, or in conflict with the South East Queensland Water Supply and Sewerage Design and Construction Code and this approval has not specifically authorised the omission, inconsistency or conflict under a Non-Conformance table included in the approved drawings, the South East Queensland Water Supply and Sewerage Design and Construction Code shall prevail.	'Off-Maintenance'.
3e	Notification and Verification for Products and Materials received, Optional Inspections by Unitywater	
	Notify the Unitywater Key Contacts of all products and materials (pipes, fittings, appurtenances, equipment) shipments received by the Principal Contractor for permanent installation and provide written verification that the products and materials received are compliant with the version of the SEQ Code Civil IPAM List current at the Pre-Start Meeting date. Note: Unitywater may elect to inspect some, or all, of the products and materials received and the Unitywater Inspector shall first coordinate a site meeting with the Applicant Key Contact, by providing a minimum of 24 hours' written notice.	Within 48 hours of receipt of each shipment of products or materials for permanent installation.
3(f)i	Documentation requirements as a single package prior to On-Maintenance inspection	
	Submit as-constructed drawings and all documentation which detail the works as a single package to Unitywater Development Services in compliance with requirements of the South East Queensland Water Supply and Sewerage Design and Construction Code and the Connections Administration Manual.	Prior to request for On-Maintenance Inspection
3f(ii)	Request and Participate in an On-Maintenance Inspection	
	Submit a request to Unitywater Development Services for, and participate in, an On-Maintenance Inspection for attendance by: 1. the responsible consulting engineer (Applicant Primary Contact); 2. the Principal Contractor (and the Subcontractor(s) if any); and Unitywater representatives (Primary or Secondary Contacts).	After submission of the On-Maintenance Documentation Package and prior to requesting a Certificate of On-maintenance.
3g	Provide structural certification for construction of sewerage bridging	

PDA Development Conditions		
No.	Condition	Timing
	Provide Unitywater with RPEQ structural certification for the structural bridging as designed for building or structures over the proposed or existing sewerage mains that certifies the structural bridging has been achieved consistent with the detail shown on the approved design drawing(s), included in the Table of Approved Documents and Drawings .	Prior to request for On-Maintenance inspection.
3h	Acceptance of Prior Stage Network Dependencies	
	The Network Works for this stage of development have prior network dependencies that must completed prior to acceptance of the works under this approval. Ensure completion of work and agreed to connect to by Unitywater for: Relevant Network Works in Sewage pumping station SPS-WTG101	Prior to the network connections being authorised.

STANDARD ADVICE

Standard Advice		
No.		
1	Works in roads	
	Where works associated with the Connection Application results in works to be carried out in a publicly controlled place e.g. roads, it is the Applicant's responsibility to gain the necessary approvals from the relevant authority e.g. council, Department of Transport and Main Roads. It is the Applicant's responsibility to ensure that it has all necessary consents and approvals to carry out any works in a publicly controlled place prior to starting any such works. The approval for works in roads must be attached to the Request for Pre-start Meeting form.	
2	The Aboriginal Cultural Heritage Act 2003	
	The Aboriginal Cultural Heritage Act 2003 commenced in Queensland on April 16, 2004 and establishes a Duty of Care for indigenous cultural heritage. This applies on all land and water, including freehold land. The Cultural Heritage Duty of Care lies with the person or entity conducting the activity. Penalty provisions apply for failing to fulfil the Cultural Heritage Duty of Care. Unitywater strongly advises the Applicant to contact the Cultural Heritage Co-ordination Unit on 07 3247 6212 to discuss any	

	obligations under the Aboriginal Cultural Heritage Act 2003.	
3	Level of service	
	The Water and Sewerage Services Code for Small Customers in South East Queensland and the Unitywater's Customer Service Standard specify the level of service for Unitywater's water and sewerage services.	
4	Other services	
	It is the Applicant's responsibility to acquire the necessary approvals from the relevant authority or service provider to alter or relocate their service.	
5	Other approval requirements and compliance with all laws	
	This approval only authorises the connection to Unitywater's infrastructure. This approval does not remove the need for other approvals in order to carry out the necessary work for development. For example, the Applicant should consider the need to comply with relevant standards and obtain approvals for impacts arising from sediment and erosion control, flora and fauna and traffic/roads, including traffic management etc. The Applicant is responsible for obtaining all necessary approvals for its development and complying with all laws including all environmental laws.	
6	Damage to existing services and assets	
	At all times during construction, notify Unitywater immediately of any damage caused to existing water supply and sewerage services and assets above or below the ground. Proposed repairs must be referred to Unitywater for approval as soon as reasonably possible. Any repair work which proposes to alter or affect the alignment or level of existing water supply and/or sewerage services and assets must first be referred to Unitywater for approval.	
7	No works authorised	
	The applicant is not to carry out property infrastructure works, or network works that are not approved by Unitywater, until after the necessary phase of water approval is granted.	
8	Design and construction	
	Prior to network works approval, any water supply and sewerage works must be designed in accordance with the South East Queensland Water Supply and Sewerage Design and Construction Code, Unitywater's Connections Administration Manual, or Unitywater's Accreditation and Certification Manual,	

	and any other matter Unitywater considers to be relevant to the connection or establishment of its water services or sewerage services.	
9	Work health and safety compliance	
	At all times during construction and until works are accepted 'Off-Maintenance', the Applicant must comply with the Work Health and Safety Act and Regulations. Note: Should the Applicant fail to appoint a Principal Contractor within the meaning of that Act within the time required, the Applicant shall be the Principal Contractor under that Act and shall perform all duties of the Principal Contractor including but not limited to: 1. Giving notice to the Director of Accident Prevention prior to commencing notifiable work; and Payment of the relevant fees under the Act.	
10	Third party property	
	If any infrastructure authorised by this approval is to be constructed on property that is not owned or controlled by the Applicant, it is the Applicant's or developer's responsibility to gain the necessary consents to install that infrastructure.	
11	Errors and omissions	
	This approval shall not be taken to mean that the drawings have been checked in detail, Unitywater accepts no responsibility whatsoever for the survey information, the design, or for the accuracy of any information or detail contained in the drawings and specifications. Where errors or omissions occur in the design drawings or specifications, or where works do not conform to or meet Unitywater standards, the Applicant shall be responsible for arranging rectification to comply with those standards at no cost to Unitywater. Where approved drawings contain insufficient detail, or do not contain details of works that are either necessary or associated with the development then these works shall be designed, approved and constructed to Unitywater standards, as required by Unitywater. Unitywater reserves the right to request amendment of the approved drawings or request further information should this become necessary. Only the approved drawings shall be used for construction.	
12	Connection to Unitywater water supply network	
	All works associated with live water mains must be carried out by Unitywater at the developer's expense.	

	Connections to the existing Unitywater water supply network must only be carried out by Unitywater Private Works section by application. Connections will only be completed after the new water supply infrastructure has been accepted 'On-Maintenance'. Works on or in close proximity to existing Unitywater infrastructure require consultation with Unitywater Private Works prior to commencement of construction. Private Works shall be contacted (allow a minimum of five working days for processing) prior to commencing work. The requirement for a Network Intervention application will require additional processing time.	
13	Private Works	
	The Applicant is advised that all connection work by Unitywater Private Works are quoted on application. Note: The Applicant must ensure works can commence within thirty (30) days once the quote has been paid. Unitywater reserves the right to requote when a period greater than thirty (30) days from time for payment has elapsed.	
14	Damage to existing services and assets	
	At all times during construction, notify Unitywater immediately of any damage caused to existing water supply and sewerage services and assets above or below the ground. Proposed repairs must be referred to Unitywater for approval as soon as reasonably possible. Any repair work which proposes to alter or affect the alignment or level of existing water supply and/or sewerage services and assets must first be referred to Unitywater for approval.	
15	Work health and safety compliance	
	At all times during construction and until works are accepted 'Off-Maintenance', the Applicant must comply with the Work Health and Safety Act and Regulations. Note: Should the Applicant fail to appoint a Principal Contractor within the meaning of that Act within the time required, the Applicant shall be the Principal Contractor under that Act and shall perform all duties of the Principal Contractor including but not limited to: 1. Giving notice to the Director of Accident Prevention prior to commencing notifiable work; and Payment of the relevant fees under the Act.	

Please note that to lawfully undertake development, it may be necessary to obtain approvals other than this PDA Development Approval. For advice on other approvals that may be necessary in relation to your proposal, it is recommended that you seek professional advice.
