PLANS AND DOCUMENTS
referred to in the PDA APPROVAL

10 OCT 2013

MEDQ

This Vegetation Management Plan (VMP) series is prepared for lodgement and assessment by Economic Development Queensland (EDQ) as part of the existing operational Works application for vegetation clearing over small sections of the approved water main construction. An existing operational works application, VMP and other supporting document has been submitted and properly made with EDQ [Reference: DEV4013/491]. Following the submission of this application and on-site inspection of the required works was completed by representatives from PEET, EDQ and Logan City Council. During this inspection it was agreed that the existing VMP which previously covered the entire water main alignment should be reduced to only cover the lineal areas of actual clearing. This VMP package provides this reduced application and approval footprint.
