## HERITAGE COLOUR SCHEME

### Abbotsford House External Colours

All colours are from the Dulux Traditional Colour Range and are based on colour schemes from the period using a similar tonal range to the original colours which were identified from paint scrapings.

The blue sidelights at the front door are reflected in the choice of "Royal Blue" as the darkest tone, which emphasises the horizontal elements of the building. The yellow "fanlight" above the door is equally reflected in the choice of "Golden yellow" as the main external wall colour for this period. The traditional colour, "Lime white" used for verandah colour accenting may also be used at half strength to highlight any fine detailing. This can be determined on site at the time of painting.

ROYAL BLUE - DULUX

GOLDEN YELLOW - DULUX

LIME WHITE - DULUX

## Interior Colour Scheme.

ALL INTERNAL WALLS: DULUX ANTIQUE WHITE U.S.A.  
(SATIN)

ALL INTERNAL CORNICES  
AND CEILINGS: DULUX NATURAL WHITE.
